

ARoS Aarhus Art Museum

Welcome to ARoS Aarhus Art Museum – one of Europe’s largest art museums situated in the heart of Aarhus.

ARoS is a house of art where our guests can be pleased, enlightened and challenged. The architecture is of international class. The same is the art. And both offer experiences of high carat: from light to thrill, from attitude to entertainment, from joy to challenge.

The art museum contains four large exhibition galleries of just under 1,100 square meters and The West Gallery with its 350 square meters. Each gallery shows special exhibitions with both national and international artist such as Bill Viola, Olafur Eliasson, Wim Wenders, Paul McCarthy, Shirin Neshat and Robert Rauschenberg. Besides the special exhibitions the galleries give the opportunity to view works from the museum’s own collections featuring work dated from 1770 until today including contemporary works by international artists such as Tony Oursler, Carsten Höller, Mona Hatoum, Miwa Yanagi and James Turrell.

In addition international light-, video- and installation art are presented in the special exhibitions section “The 9 Rooms” in the basement.

In May 2011 the spectacular *Your panorama rainbow* opened on top of the museum. The unique project is made by Studio Olafur Eliasson, Berlin.

ARoS Aarhus Art Museum’s striking architecture is created by schmidt hammer lassen architects. The building is cube-shaped and is inside sliced through by a curved “museum street”, to which the public has access without admission charge. Forming a logistical pivot, a spiral staircase punctuates the mid-point of the “street” and, on payment of an entrance fee, affords full access to the various galleries and facilities.

Besides its galleries, ARoS contains a Junior Museum, ARoS Shop, ART Café and ART Restaurant.
